Fengshui Salt Coin Cure can be used to cure annual Flying Star #5. Flying Star #5 is known as sickness star. The Salt Coin Cure is cheap and easy to setup. The setup described below can be done in less than S\$5/=

The material needed:

1. Minimum 700ml glass bottle (cost: \$2/- at Daiso Singapore)
2. Coarse Salt (\$2/- at market for 1 big bag)
3. 6 X Qian Long Coin (\$0.20 each)
4. Small piece of silver (\$2/- for 4 pieces, can get from Pasar Malam selling 916 silver) or silver coin (\$2.50 - \$3 per piece from Fengshui shop)
5. Water (from your tap)

Glass Bottle	Coarse Salt
	
6 X Qian Long Coin with 1 X small piece of Silver	Silver Coin
	

## Instruction

1. Fill up  $\frac{3}{4}$  of the glass bottle with Coarse Salt

2. Place 6 X Qian Long Coin and small piece of silver (or silver coin) on top of the salt

3. Fill it up with water up to the neck. Do not overflow.
4. Cover up the Salt Coin Cure with plastic bag. Remember to poke some holes to allow ventilation. (Note: The Salt Coin Cure will not work if there is no interaction with the air)
5. Put a plate or mat under the bottle to protect your furniture. If the energy is bad, the Salt Coin Cure might overflow.
6. After 1 week of placement, you should see the water turning greenish. It's mean your placement is correct. If not, check your sector again against the yearly flying star.
7. If forming happens and there is a lot of overflowing, that's mean, the energy is bad. Change to a new one after the first 3 months.
8. Top up with water occasionally
9. Always change your Salt Coin Cure every year. Do not re-cycle any of the items. Use a glove when handling the Salt Coin Cure as it absorbs bad energy. Throw away the entire set outside of your house.
10. The time to change your Salt Coin Cure is between 23<sup>rd</sup> Dec – 3<sup>rd</sup> Feb the next year. Note: need to observe the following year Flying Star #5.
11. Place up to 2 Salt Coin Cure per house.
