Prediction:

The conflicts and issues with trade war will continue this year. The main theme this year is financial recovery due to COVID-19 but all these are not forthcoming. Businesses will have issues of growth and profitability.

Results:

The trade war continues throughout the year of 2021 with no sign of improvement even after Joe Biden has taken over as US president. Because of this trade war, a lot of countries have gotten the side effect of it.

Prediction:

The issue with COVID-19 will continue to dominate every country. Although vaccine for COVID-19 will be readily available starting Feb/Mar 2021, its effectiveness may not be optimal. Therefore do not expect the vaccine to be a silver bullet and we may have to continue the "New Normal", which has more restrictions imposed.

Results:

The vaccination starts to be available early 2021 where most of the countries start to rollout vaccination program to everyone. However, vaccination poses a major challenges where:

- Rich countries hog all the supply deprive the supply to poorer countries
- Most people expect that after vaccination, life will go back to pre-Covid but it wasn't the case where vaccinated people can still get infected.
- Vaccinated people are not fully immune against existing and new variance of Covid

Prediction:

The world economy continues to be bad in general. There is no sign of recovery this year. The exception is those in the medical industries where it will continue to be booming with the prolong issue with COVID-19 global pandemic.

Prediction:

The job market continues to be bad with potential high in retrenchments in Feb/Mar timeframe, especially those in the high paying job.

Results:

The International Labour Organization (ILO) reported the following in the World Employment and Social Outlook¹:

Economic and labour market recovery is expected to start in 2021 but it would remain uneven globally and inadequate to close the gaps opened up by the crisis.

The recovery would remain fragile in many countries due to the uneven rollout of vaccination campaigns and higher levels of public debt and deficits that would make it difficult to tackle the effects of the pandemic.

Prediction:

The entertainment industry (night club, KTV, pub etc) and transportation industry will continue to be stagnant and losing money.

Results:

With on and off lockdown by the government across the world, it has disrupted the entertainment and transportation industry with the except for delivery and logistic companies. Since Covid-19, more people are staying at home and ordering stuff online that require delivery and logistic.

Prediction:

Divorce rate will continue to rise, like last year.

Results:

Due to Covid-19, most people are working from home and therefore increase the chance of argument. Most of the countries reported higher trend of divorce.

Prediction:

Property market and those in spiritual businesses will be thriving.

Results:

In Singapore, there is an upward trend in property market. Despite Covid-19, the property market continues to thrive. The main reason is due to Covid-19, more people are working from home and the original intend of a house for non-office setting has been blurred. People are converting their home to office and this has caused issues and conflicts. As such, most people are looking at upgrading their home to a bigger space.

Year 2022

This year, 2022 is Ren Yin (壬寅) Tiger Year. The Tiger year starts on 4th February 2022 at 04:50 hour. However, for Qi Men Dun Jia yearly prediction, we will be using the date and time of Chinese New Year Eve to plot the chart and perform the analysis. The main reason is that the human Qi during this time is strong as every Chinese will be celebrating the Chinese New Year. This is to be in line with the Heaven, Earth and Human concept (天时, 地利, 人和). This year, Chinese New Year occurs on 1st Feb 2022.

Like last year, the conflicts and issues with trade war will continue this year. This year theme is transportation. The fast moving transportation (e.g. courier and delivery business) will continue to flourish this year. With the high vaccination rate among most of the countries around the world, there is uplift in travel and leisure. However, due to rigid requirement, the public may be put off with travel.

The Covid-19 situation is not improving as the vaccine is not performing as expected. People still can get infected by Covid-19 but they will be able to recover faster and better. Constant booster shots are required.

The economic recovery remains as an issue as per last year with very slow recovery. This will probably go on for the next 2 years. As mentioned last year, the medical industries and any unconventional industries will continue to flourish.

The job market will pick up this year with more people changing jobs after being stagnant for the last 2 years. There will be more job movements in the education industries and sales.

The entertainment industry (night club, KTV, pub etc) will continue to be sluggish and losing money.

Divorce rate will stabilise this year.
